

# Driving question board

What activities or conditions contribute to the water quality within a watershed?

- Using the sticky note provided, write down 2 questions that you would like to have answered. (2 minutes)
- Next, get into groups of 4 and narrow down and share your questions. Come up with 3 questions your group wishes to have answered in the unit and write 1 question on each of 3 sticky notes provided. You will then place your questions onto the driving question board. (4 minutes).
- Go through the questions as a class to place them into categories to investigate and discuss. (7 minutes)
